Session on
Alumni Connect for Viksit Bharat@2047

Prime Minister Narendra Modi launched the initiative 'Viksit Bharat @ 2047 : Voice of Youth' on December 11, 2024, through a virtual mode. Viksit Bharat@2047, translating to "Developed India@2047," is a visionary initiative introduced by the government to channelize India's potential and position it as a global leader across various domains by the 100th anniversary of its independence. This initiative is a comprehensive roadmap encompassing economic, social, technological, and environmental facets, aiming to address multifaceted challenges and propel the nation towards holistic development.It seeks to involve the universities and students in attaining the goal of a developed India by 2047.

As a part of this initiative, IGDTUW has started a series of online sessions with IGDTUW alumni. Today,on December 16th 2023, Esha Gupta, a proud alumni of IGDTUW was invited as a guest speaker. Esha Gupta is currently a Data Engineer II at the Expedia Group. She completed her graduation in ECE in the year 2022. During her 4th year, Esha worked as a public relations head at the TnP cell of IGDTUW and was the Chairperson of Women in Big data at IGDTUW. She has published two peer-reviewed articles and one conference paper under the guidance of esteemed faculties of the university.

As an invited guest, she shared her undergraduate-to-corporate journey with the audience consisting of 38 members. She also discussed the ups and downs of an undergraduate degree and how various activities like technical sessions at IEEE Big data in women, mentor-mentee training, Tarangana, and innerve etc at IGDTUW helped her to shape her personality and become confident in life. She truly believes that economic advancements, technological innovation, social inclusivity, and environmental sustainability, the four main objectives of Viksit Bharat must be followed by all of us. They will help us to grow and become successful in all spheres of life. In the end, she encouraged her juniors to ask questions, seek opportunities at the university, learn upcoming technologies like Kafka and Internet-of-things, and stay connected with the alumni of IGDTUW.
