### Session on Green Leadership: Women Spearheading

#### Environmental Change in Viksit Bharat

Aligned with the visionary 'Viksit Bharat @2047: Voice of Youth' initiative launched by Prime Minister Narendra Modi on December 11, 2024, IGDTUW has embarked on a series of offline sessions aimed at fostering holistic development across economic, social, technological, and environmental dimensions. In a recent session, Astha Sharma, a junior research fellow at IGDTUW, captivated attendees with a presentation titled "Green Leadership: Women at the Forefront of Environmental Change in Viksit Bharat."

Sharma's presentation was a poignant exploration of the intersection between sustainability, social impact, and women's leadership in environmental conservation. Drawing inspiration from renowned figures such as Wangari Maathai, Isatou Ceesay, and Jane Goodall, she highlighted the transformative contributions of women in driving environmental change. The session delved deep into pressing issues such as gender equality, equitable representation, resource accessibility, and work-life balance, offering actionable solutions to empower women in leadership roles.

Through this enlightening program, participants gained invaluable insights into the pivotal role of technology in shaping the future of education and sustainable development. By aligning with the broader objectives of the 'Viksit Bharat @2047' initiative, the session not only inspired attendees to advocate for environmental stewardship but also equipped them with the knowledge and tools to drive positive change within their communities and beyond.
