WIE talk on "Unicode and Multilingual Computing" by Ms. Swaran Lata

On the occasion of IEEE DAY, IEEE IGDTUW organized a WIE talk on "Unicode & Multilingual Computing" on 1st October 2019.This talk was conveyed by Ms. Swaran Lata who currently works under Ministry of Electronics and Information Technology. Ms Swaran Lata has managed numerous projects and has played a key role in finalizing the UNICODE encoding system for 22 Indian Languages and Vedic Sanskrit. The talk was highly stressed on how Unicode & multilingual computing works and what are the various career options under this field. The event witnessed a footfall of 90+ students from IGDTUW. The students got to broaden their minds with so many career opportunities and multilingual computing knowledge which definitely paved a way for their future.
